Pliers for agriculture

In the field, the workshop, and the barn or anywhere on the farm – the working life of a farmer is very demanding. KNIPEX pliers support the worker in their day to day tasks with robust and strong working equipment that provide greater gripping force without slipping and cutting precision.

Ideal for fencing: The compact KNIPEX CoBolt® bolt cutter saves 60 % of effort on every cut compared to conventional high leverage diagonal cutters and easily cuts spring steel wire. With its profiled gripping surface, wires can be held and pulled securely.

Necessary on every tractor: The KNIPEX Multiple Slip Joint Spanner reliably loosens damaged or rusty nuts without damage. It grips a full range of metric and imperial nut sizes from 10 mm to 32 mm (3/8" to 1 1/4"). The self-locking jaw system with easy one-handed adjustment securely holds the nut without rounding its edges.

Essential for every farm: The KNIPEX Cobra XL® is lighter with a greater gripping capacity than other pipe wrenches. With a length of only 400 mm the Cobra® grips pipes up to 90 mm and nuts up to 95 mm. These robust pliers are easily adjusted at the touch of a button. The teeth (61 HRC) provide a stable grip and high wear resistance.

Classic tools for the workshop: KNIPEX High Leverage Combination Pliers cut flat and round material easier and grip with more force than conventional combination pliers. The optimised transmission ratio leads to 35 % less effort required. The cutting edges are specially hardened and, due to their length, also suitable for thicker cable and wire.

Regardless of your needs Sturdy, precise, firm gripping or powerful cutting. For all applications on the farm, inside and outside, traditional or modern – KNIPEX has the ideal plier solution.

Regardless of your needs – cutting, gripping, precision or strength – and for all applications on the farm – KNIPEX has the ideal plier solution.

SYMBOLS

	flat jaws		with lead catcher		electrostatic discharging, dissipative		weight
	half-round jaws		angle		electronics		length
	round jaws		centre cutter		VDE tested, also in compliance with GPSG		soft wire
	flat and pointed jaws		cutting edges with bevel		insulated according to IEC 60900. usable up to 1000 V AC/1500 V DC		medium hard wire
	box joint		cutting edges with small bevel		insulated according to DIN VDE 0680/1. usable up to 1000 V AC / 1500 V DC		hard wire
	bolted joint		cutting edges with very small bevel		conforms to a European directive		piano wire
	smooth gripping surfaces		cutting edges without bevel		mechanically tested in accordance with the equipment and product safety act		Cu- + Al-multi-conductor cable, solid and multi-stranded
	knurled gripping surfaces		for flush cut of soft materials		WEEE marking (Waste Electrical and Electronic Equipment Directive)		wire rope
	cross-hatched, knurled gripping surfaces						iron
	with opening spring						ribbon cable

85 51 250 AF

Spring Hose Clamp Pliers with locking device

- > Rotating, universal grip inserts for reliably gripping the clamps in all positions
- > Jaw inserts can also be rotated under load
- > Extremely good leverage which allows clamps to be opened easily without great effort
- > Slim head design; narrow head width, rotating grip inserts make this an ideal tool, especially in confined areas
- > Additional function: detach hoses gently using the serrated jaw
- > Chrome vanadium electric steel, forged, oil-hardened

Hose Clamp Pliers

for Click clamps

85
51

To open and close Click clamps

- > Rotating jaw inserts for the safe actuation of clamps in any position
- > Good leverage which allows clamps to be opened and closed again comfortably and easily without a great deal of effort
- > For easy working on fuel hoses, vacuum pipes and suction nozzles and many other applications
- > Additional function: detach hoses gently using the serrated jaw
- > Slim head design; narrow head width, rotating grip inserts make this an ideal tool, especially in confined areas
- > Chrome vanadium electric steel, forged, oil-hardened

KNIPEX Cobra® Hightech Water Pump Pliers

87
0

- > Push the button for adjustment on the workpiece
- > Fine adjustment for optimum adaptation to different sizes of workpieces and a comfortable handle width
- > Self-locking on pipes and nuts: no slipping on the workpiece and low handforce required
- > Gripping surfaces with special hardened teeth, teeth hardness approx. 61 HRC: high wear resistance and stable gripping
- > Box-joint design for high stability due to double guide
- > Reliable catching of the hinge bolt: no unintentional shifting
- > Guard prevents operators' fingers being pinched
- > Chrome vanadium electric steel, forged, multi stage oil-hardened

Cobra® XXL (87 01 560): Reliable and tight gripping of track rods...also without hexagon!

KNIPEX Cobra® QuickSet Hightech Water Pump Pliers

87
2

Fully open, push, grab!

Additional fast adjustment on the workpiece by sliding the pliers handle

- > Combines the proven, reliable locking of the hinge bolt with an additional push function which makes it easier to work in very confined and inaccessible areas
- > The adjustment directly on the workpiece is possible by simply sliding the pliers handle
- > Reliable locking of the hinge bolt with the first workload. The gripping width of the pliers is then fixed and can only be adjusted by pressing the button.
- > To re-activate the sliding function, the hinge bolt must be released by pressing the push button and the pliers must be completely opened again
- > Chrome vanadium electric steel, forged, multi stage oil-hardened

87 22 250

Siphon- and Connector Pliers

81

For siphons, oil filters, plastic pipes and connectors up to 80 mm diameter

Fine adjustment for ideal adaptation to diverse diameters

Robust, heavy duty

- > Ideal for tightening and loosening siphon screw connections, plastic pipe fittings and round union nuts
- > For connectors and couplings with screw connection, such as Cannon circular connectors
- > For gentle loosening of hoses on nozzles and filter cartridges
- > 25 adjustment positions, box-joint design
- > Ergonomic handle geometry
- > Chrome vanadium electric steel, forged, oil-hardened

81 01 250 / 81 03 250

> With serrated gripping jaws; up to ∅ 80 mm

81 11 250 / 81 13 250

> With exchangeable plastic jaws for sensitive surfaces; up to ∅ 75 mm

Pliers and a wrench in a single tool

Replaces the need for sets of metric and imperial spanners

- > Adjustable tightening tool
- > Also excellent for gripping, holding, pressing and bending workpieces
- > Zero backlash jaw pressure prevents damage to edges of sensitive components
- > Push the button for adjustment on the workpiece
- > Parallel jaws give a more solid grip; its design allows flexible adjustment of all widths up to the specified maximum size
- > Reliable catching of the hinge bolt: no unintentional shifting
- > The ratchet type principle allows quick and easy tightening and release of all bolted connections
- > Lever transmission greater than 10 : 1 for strong gripping power
- > Chrome vanadium electric steel, forged, oil-hardened

86 03 180

Pliers Wrench, angled shape (86 43 250):
Due to the 15° angled handles, the universal in use pliers wrench creates the necessary space for fingers and knuckles

Ear Clamp Pliers

10

Suitable for universal use, for 1-ear and 2-ear clamps (Oetiker system or similar)

- > For the simple and reliable mounting of 1-ear and 2-ear clamps (Oetiker system or similar)
- > No damage to press points on the ear clamps
- > The slim head permits good accessibility in confined areas
- > Versatile use for clamps on CV boots, cooler and fuel lines, air pressure systems, compressors
- > Durable and strong
- > High-grade special tool steel, forged, oil-hardened

10 99 I220

- > Especially suitable for universal use thanks to the additional side jaw

Long Reach Needle Nose Pliers

DIN ISO 5743. with transverse profiles

28

For gripping, adjustment and assembly work in hard to reach areas thanks to slim, very long design

Deep parts can be easily reached using the slim, half-round tips

- > Careful yet reliable gripping, holding and guiding of small copper pipes, screws and cables as well as other round parts thanks to milled grooves with smooth surfaces
- > Serrated pipe grip to grip round parts
- > Particularly suitable for work in the automotive trade and in mechanical engineering
- > Slim yet robust tool; forged from special tool steel, oil-hardened and tempered

Needle-Nose Combination Pliers

08

Small High Leverage Combination Pliers with pointed jaw For all common installation and repair work

Handy use when working in confined areas thanks to slim head design and pointed jaws (anti-twist)

Gripping surfaces with special convex contour on one side for secure gripping of flat parts

Milled groove in the gripping area permits small parts such as nails, pins and bolts to be held and pulled

- > The reliable and diverse combination pliers when out and about
- > Easy cutting thanks to the high leverage joint
- > With cutting edges for soft, medium-hard and hard wire
- > Long service life and stable tips; forged from special high grade tool steel, manifold oil-hardened

08 21 145

08 25 145

08 26 145

Milled groove in the gripping area

Firm grip also on flat material due to three-point rest

Tip keeps its shape even during greater torsional forces

The mobile task force

Multifunctional pliers for the electrical installation; to grip flat and round material, for bending, deburring, cutting cable, stripping and crimping end sleeves (ferrules)

6 functions in one pair of pliers

- > Smooth surfaces near the tips grip single cores without damaging them; serrated gripping surfaces and pipe grip for gripping flat and round material
- > Clear-cut outside edge on the jaw for working on flush-mounted junction boxes and deburring feed-through holes
- > Stripping holes for conductors of 0.75 – 1.5 mm² and 2.5 mm²
- > Crimp die for wire-end ferrules 0.5 – 2.5 mm²
- > Cable shears with (induction-hardened) precision cutting edges for copper and aluminium cables up to 5 x 2.5 mm²/dia. 15 mm
- > Slim dimensions for easy access
- > Bolted joint: precise, zero backlash operation of pliers

Automatic Insulation Stripper

12

- > Compact standard tool at a favourable price for all current cable cross-sections and insulating materials
- > For single, multiple and fine stranded cables of 0.2 up to 6 mm² with standard insulation
- > Adapts automatically to the respective cable cross-section; prevents damage to the conductor
- > Handy shape and low weight provide high operation comfort
- > Narrow head style for use in confined areas
- > With wire cutter for copper and aluminium wires up to 2.5 mm²

Article No.	EAN 4003773-	 mm ²	 AWG	 mm
12 62 180	054573	0.2 – 6	24 – 10	180

Wire cutter for multiple stranded wire cables up to 10.0 mm²

Adjustable length stop

Precise stripping prevents damage to the conductor

Self-Adjusting Insulation Stripper

12

- > For single, multiple and fine stranded conductors with plastic or rubber insulation
- > Cutting depth can be adjusted for different insulation materials
- > Blade: special tool steel, oil-hardened

Article No.	EAN 4003773-	 mm ²	 AWG	 mm
12 40 200	026662	0.03 - 10	32 - 7	200

KNIPEX MultiStrip 10

Automatic Insulation Stripper

12

Stripping without re-adjustment from 0.03 to 10.0 mm²

Universal blade geometry -robust and more durable

Ideal grip design with excellent haptics

Recessed wire cutter

- > Fully automatic adjustment to all single-, multi- and fine-stranded conductors with standard insulation throughout the entire capacity range from 0.03 to 10.0 mm²
- > No manual fine adjustment necessary
- > No damage to the conductors
- > The clamping jaws made of steel hold the cable in a way that prevents slipping without damaging the remaining insulation
- > With recessed wire cutter for Cu and Al conductors, stranded up to 10 mm² and single wire up to 6 mm²
- > Particularly smooth-running mechanics and very low weight
- > Replaceable blades block and length stop
- > Handle with soft-plastic zone for a steady grip

Article No.	EAN 4003773-	Stripping capacities mm ²	AWG	 mm
12 42 195	054580	0.03 – 10	32 – 7	195

PATENTED

Precise stripping from 0.03 to 10 mm² without re-adjustment

Steel clamping jaws avoid slipping of the cable

Wire cutter for multiple stranded wire cables up to 10.0 mm²

Also for insulated and non-insulated end sleeves (ferrules) 10 / 16 / 25 mm²

Universal indent crimping die for non-insulated connectors

- > Just one tool for the most common crimping applications
- > Crimping dies changed quickly and easily without any additional tool
- > Sorted and protected storage of the interchangeable dies in a round magazine
- > Comfortable, powerful crimping pliers in professional quality
- > Same reliable crimping results as with fixed crimping dies
- > Repetitive, high crimping quality due to precision dies and integral lock (self-releasing mechanism)
- > Chrome vanadium electric steel in special quality, oil-hardened
- > Round magazine: plastic, fibreglass-reinforced

97 33 02

Changing position: service lever opens out for parallel jaw positioning

Changing the crimping dies: unlock the magazine position, take out the set of dies which the pliers have been pushed on

Fold in the service lever and press the pliers – ready for use again

52

- > Repetitive, high crimping quality due to precision dies and integral lock (self-releasing mechanism)
- > Crimping pressure has been set precisely (calibrated) in the factory, re-adjustable
- > Optimum transmission of force thanks to toggle lever for fatigue-reduced operation
- > Good handling thanks to favourable handle position, low weight, compact design and ergonomically shaped handles
- > Chrome vanadium electric steel in special quality, oil-hardened

Electronic Super Knips®

78

- > Precision pliers for ultra fine cutting work, e. g. in electronics and fine mechanics
- > Ground, very sharp cutting edges without bevel
- > Shear cut with controlled micro cutting edge misalignment for the most precise cutting of even the thinnest of wires and for a long service life
- > Precision shaped tips cut wires resting on a board from 0.2 mm dia.
- > Joint with stainless steel rivet
- > Extremely smooth movement for minimum operator fatigue
- > With opening spring and opening limiter
